---

Dear Hiring Manager,

I am writing this to express my strong interest in Front-End Developer or IT related position.

In my previous role at Internet Career Solutions, I was responsible for making affiliate landing pages on websites where you send traffic with the goal of driving your visitor to click and convert on an affiliate offer. Traffic that landing page could come from social media, email newsletters, and paid advertising.

This experience has given me a deep understanding of user behavior and the importance of a well-crafted user interface in achieving marketing goals. I am also confident that my enthusiasm and willingness to learn will help me grow into a valuable member of your team. I would appreciate the opportunity to meet with you to discuss how my skills and experience can benefit your company.

Please feel free to reach me at 09087235053 or vericvan14@gmail.com.

Thank you for considering my application. I am enthusiastic about the possibility of contributing to the success of Pixel Builder Inc as a Front-End Developer or IT related.

Sincerely,

Eric Van Villagrancia
